Headache Surgery | Sensation-Preserving Mastectomy
Sensation-Preserving Top Surgery | Peripheral Nerve Surgery

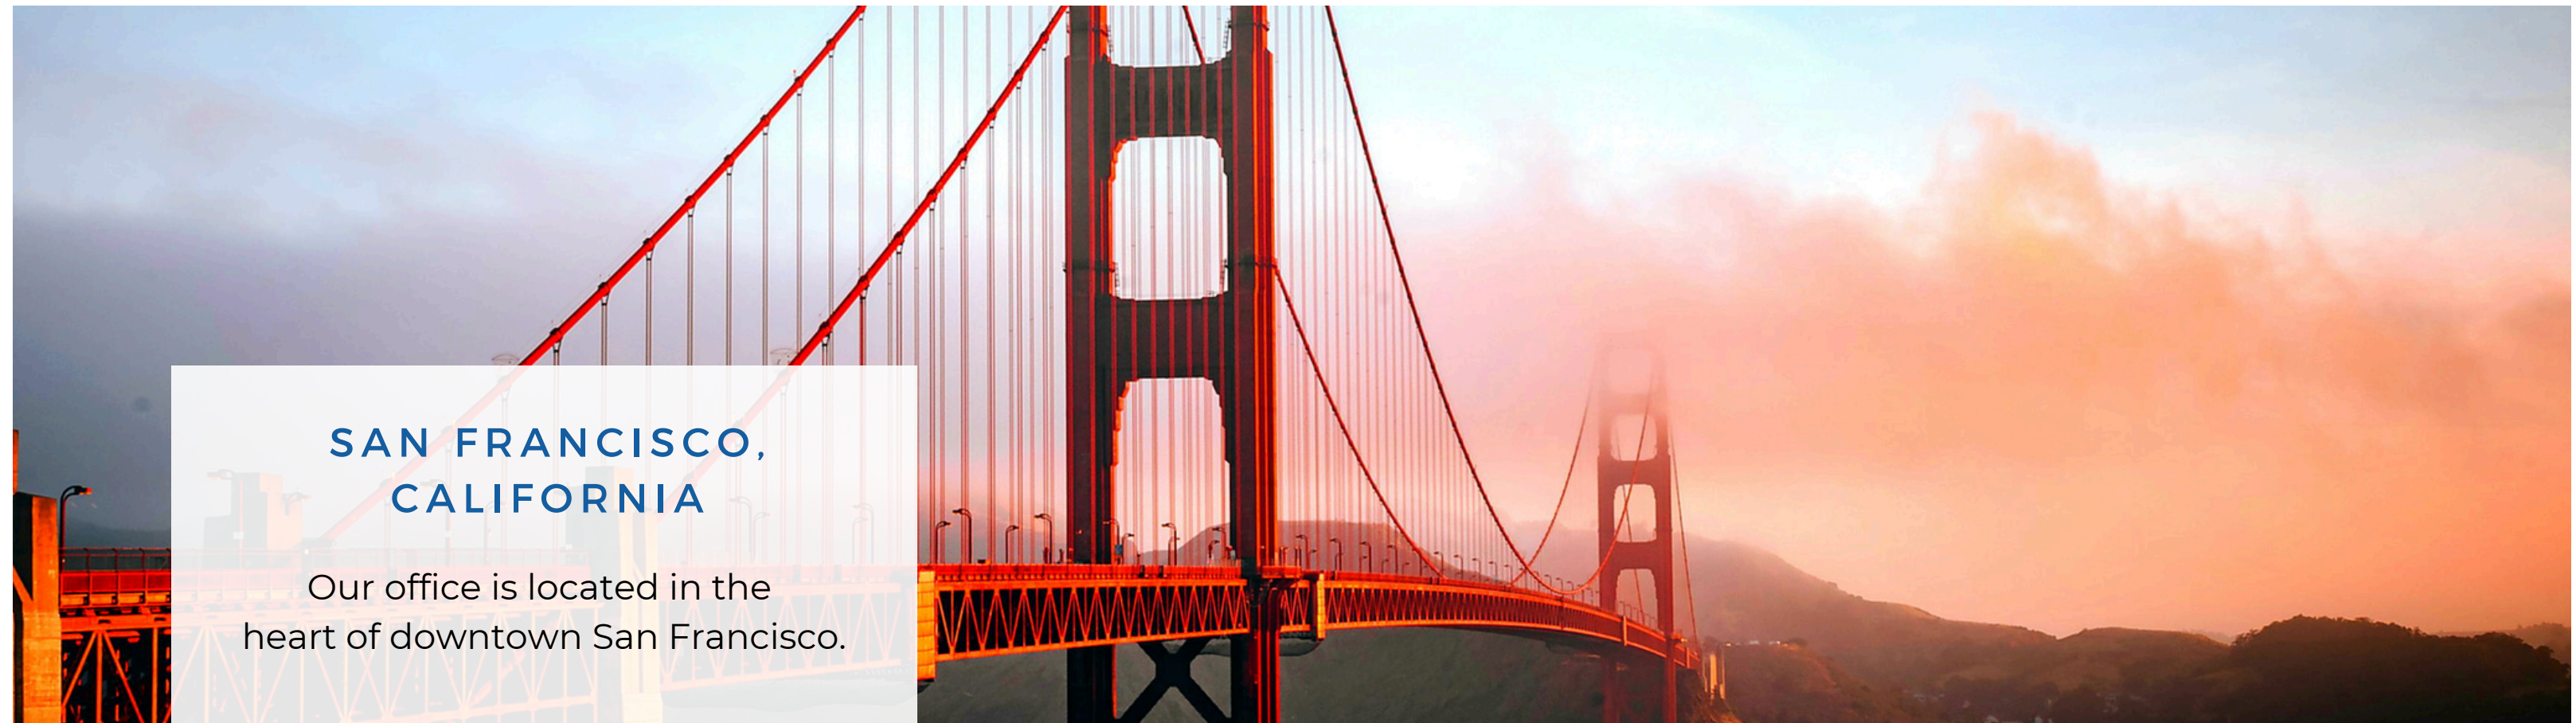

PELED SURGERY

The Perfect Partner

Ziv M. Peled, MD is a Harvard-Trained, Board-Certified Plastic Surgeon and current President of the Migraine Surgery Society, Dr. Peled and his staff provide the safest and best care with the most current techniques available.

Peled Surgery is the ideal partner for a concierge practice looking to access the best in peripheral nerve surgery. Dr. Peled has become synonymous with pioneering nerve surgical procedures to treat chronic headaches and head pain, often mistaken for migraines.

Together with his wife, Dr. Anne Peled, they have also formed a team to create an operation to preserve and restore sensation post-mastectomy. Dr. Peled has also applied these same techniques to trans-gender patients seeking sensation-preserving top surgery.

SAN FRANCISCO, CALIFORNIA

Our office is located in the heart of downtown San Francisco.

Office Location

Easily accessible from anywhere along the west coast and all major cities west of the Mississippi.

The Peled Surgery office offers a relaxed and seamless experience that takes the anxiety out of visiting the doctor.

A Modern Approach

Dr. Peled is recognized as a leader in peripheral nerve surgery. He has an intimate understanding of nerve compression patterns that are common in chronic headache and migraine sufferers. He is also very experienced in identifying nerves and preserving or reconstructing them during mastectomy procedures, whether for cancer purposes or for gender-affirming reasons.

His process comes to fruition through a combination of a detailed patient history, a comprehensive physical examination, and targeted diagnostic testing, whether it is nerve blocks or neurosensory testing. Dr. Peled's academic accomplishments and successful results over the past 14 years have culminated in his recognition amongst peers and elevation to President of the Migraine Surgery Society.

In addition to migraine treatment, Dr. Peled and his wife have pioneered the Sensation-Preserving Mastectomy, which is now being successfully applied in the trans community for top surgery. For Dr. Ziv, it has been and continues to be a privilege to make a difference in these patients' lives.

At Peled Plastic Surgery, we offer patients the convenience of a variety of appointment options to suit your needs. Whether you prefer the flexibility of a telehealth consultation or the personalized approach of an in-person visit, we have you covered.

Telehealth Consultations

Our telehealth consultations allow you to connect with Dr. Peled from the comfort of your own home. Through secure video conferencing, you can discuss your concerns, ask questions, and receive expert advice without the need to travel to our office. This option is ideal for patients who are out of town.

In-Person Consultations

For those who prefer a face-to-face interaction, we also offer in-person consultations. During your visit, you will have the opportunity to meet with Dr. Peled, discuss your goals and concerns in detail, and receive personalized recommendations tailored to your unique needs.
